

At the beginning of every project we undertake a detailed project analysis based on a thorough examination of the design. In order for us to be as accurate and comprehensive as possible the following items should be transmitted to Harp at your earliest convenience:

Product Information	Format	Description	Supplied
Technical Drawings	DWG & PDF	Plans, elevations, sections & details.	
3D Model	IGES, STEP, FBX, DWG, RVT, SKP, 3DS, OBJ	3d model - ideally it will be detailed, accurate, layered & organised. Please contact our studio if help is needed exporting correct files from your design software.	
Materials	PDF	Colours & Finishes of all components	
Scene/Environment			
Plans	DWG & PDF	Architectural Plans or sketches for the environment you would like the product displayed in.	
Fixtures/Fittings	PDF	Appliances, kitchen & bathroom fixtures, light fittings	
Colour Schedules	PDF	Internal colours, finishes, manufacturer details	
Reference Imagery			
Mood Boards	PDF / JPEG	Styling, look & feel. These will help communicate your vision for the project.	
Material & Texture Reference photos	PDF / JPEG	Sample board, photos of finishes, photos of fittings	
Branding Documents	PDF	Project Brand Identity including logos, colour palettes, typography, target market info etc
